III. DETAILED ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Chid Iyer, applicant's representative on 10/28/2003.

2. The application has been amended as follows: Claims 11-17 are cancelled without prejudice.

Claims Presented

3. Claims 1-17 were presented.
4. After cancellation, claims 1-10 are presented.

Allowable Subject Matter

5. Claims 1-10 are allowed.
6. The following is an examiner's statement of reasons for allowance over the prior art: the entirety of file history,

Art Unit: 2134

including page 4 of the amendment filed 12/11/2002 are considered. The claims recite a specific type of platform neutrality. As noted at page 4 of that amendment, the claims recite more than platform neutrality in the sense of Java. These events are not merely platform independent (by use of JVM as in Java). These events are platform neutral (not need use JVM), not platform independent. The context of other limitations (e.g., the events being created by one resource and is of interest to another) clearly relate this platform neutrality to a security situation (e.g., determining if the event is registered with the information broker). Page 3 of the specification of this application notes the unsolved problems of the security situation. Thus, the particular claimed inventions are not taught or suggested by the prior art.

Conclusion

7. The art made of record and not relied upon is considered pertinent to applicant's disclosure. The art disclosed general background.
